Mike Giant has achieved fame as a graffiti artist, illustrator, and tattooist. Black ink is Giant's specialty, and whether his medium is concrete, paper, or skin, his signature style, made up of equal parts Mexican folk art and Japanese illustration, is unmistakable all over the world. His style is renowned and followed. Latin and Hispanic culture play a major role in the execution of his silhouettes, which often resemble buxom pin-up femmes fatales and assorted other voluptuous characters, often with skulls and animal tentacles. For good measure, be them shapely, graceful figures or flashy femmes fatales from various eras and cultures, Mike Giant's characters from every époque guarantee a stellar viewing experience. Muerte is the jewel in the crown of the 36 Chambers series.

A companion volume offering essays, surveys, and summaries to inform and enlighten.

Unique book addressing cooperative algorithms at the MAC layer. Cooperative communications MAC protocols focuses on issues pertaining to the MAC layer of wireless cooperative communication networks, offering a rigorous taxonomy of this dispersed field along with a range of application scenarios for cooperative and distributed schemes to show how these techniques can be employed. The authors provide rigorous analytical tools for reservation and contention-based MACs as well as hybrids. This is complemented by an application of developed techniques to specific wireless standards. There is currently no book on the market which coherently discusses cooperative algorithms at the MAC layer. Introduces background concepts, applications, milestones, and thorough taxonomy of the field along with a range of application scenarios. Identifies the potential in this emerging technology applied to, e.g., LTE, WiMAX, WSN. Explores reservation-based, contention-based, and hybrid cooperative MAC protocols and applies rigorous mathematical tools to these. Demonstrates cross-layer design to boost performance. Addresses advanced MAC topics such as opportunistic and network-coded MACs. Highlights future research challenges within the cooperative communications. Includes an accompanying website. Richard Wagner's vast Ring Cycle, comprising four full-length operas, is arguably the most extraordinary achievement in the history of opera. His libretto to the work is more than a literary work of art; its intricate system of metric patterns, imaginative metaphors, ample use of alliteration, together with its singability, combine to create something unique so that the music is embedded in the text. This volume presents

rudolph sabor's translation of the libretto to the final opera of the tetralogy *götterdämmerung* this new translation which runs side by side with the german text preserves the original metre and elucidates the complexities of wagner's intricate libretto it is unprecedented in presenting next to the translation not only a running commentary on the drama but also the names of the leitmotifs as they occur the translation is supplemented by scene by scene synopses short discussions of each leitmotif new to each scene a discography videography and full bibliography lists of all motifs in the opera and all motifs in the ring cycle conclude the volume rudolph sabor has also translated the librettos to the other three operas of the cycle and a companion volume of essays relating to wagner's ring completes the series ranging from a discussion of wagner's literary sources to a review of the ring's performance history the essays provide a prodigious treasury of information for the wagner enthusiast the books can be enjoyed individually or as a series either way they will equip the wagner enthusiast with a fund of information to make the ring journey more rewarding
