resources and a bibliography for further reading like leaves on trees the race of man is found now green in youth now withering on the ground another race the following spring supplies they fall successive and successive rise the iliad perhaps the most famous epic poems ever written the iliad and the odyssey have been read for nearly 3 000 years making them some of the oldest written works in the western world the poems made characters like paris helen odysseus achilles hector and ajax instantly recognizable and they also influenced other ancient poets like virgil whose aeneid is clearly modeled after them the epic poems also literally put troy on the map motivating heinrich schliemann to search for and ultimately find the city of troy in the 19th century believed to be penned around the 8th century bce or 7th century bce the iliad and the odyssey served as both entertainment and a moral guidebook of sorts for the ancient greeks as well as the foundation for western literature although there is some scholarly debate regarding the epic's authorship it is generally attributed to homer given that he lived nearly 2800 years ago not much is actually known about homer even his birthplace is debated but due to the dialect of greek in which the works attributed to him were written it is generally believed that he lived in iona the only other aspect of homer's life that is generally agreed upon is that he was a blind poet possibly also a bard that naturally raises the question of how he wrote his epic poetry but scholars assume he probably dictated them to a scribe as the format suggests they were comprised from various shorter forms of oral poetry even people who don't know much about ancient greek mythology can probably still name achilles the trojan horse and a number of other gods that play a part in the story of the trojan war the enduring nature of this story led to many great people claiming descent from one of the characters found within it for example alexander the great was said to have slept with a copy of homer's iliad every night during his campaigns a description of the legendary war that describes the epitome of pre hoplite warfare and is still taught at military academies around the world today the entire story from its fickle beginnings to its catastrophic end has made its way to modern readers via surviving sources which when combined form a biopsy of ancient greek myth and many of its finest elements most people could be forgiven for mistakenly believing that the iliad encompasses the entire story of the trojan war but the iliad tells the story of just four days in the ninth year of the war in many ways the iliad is the story of achilles's wrath which actually serves as a subtitle in some editions but in order to gain an idea of the full story of what occurred at troy between ancient heroes achilles hector menelaus and paris among others readers must collate sources often fragmentary stretching from the 8th century bce to roman sources in the 1st century ce indeed piecing the story together is one of the intentions of this epic poem another intention of the iliad is to highlight the nature of the story as a work of mythology not history although there are certainly historical elements in the story as well as certain seminal moments that affected cult activity in ancient greece emphasis is placed on the narrative methods that make it an enduring and iconic mixture of myth legend and folklore since the story of the trojan war permeates so many of the ancient myths recounted in literature and theater from the archaic period onward it is always important to understand that the trojan war itself was a nexus in ancient greek mythological thought

the story of the trojan war fought between greeks and the defenders of the city of troy in anatolia sometime in the late bronze age has grabbed the imagination for millennia a conflict between mycenaeans and hittites may well have occurred but its representation in epic literature such as homer's iliad is almost certainly more myth than reality nevertheless it has defined and shaped the way ancient greek culture has been viewed right up to the 21st century ce the story of gods and heroic warriors is perhaps one of the richest single surviving sources from antiquity and offers insights into the warfare religion customs and attitudes of the ancient greeks the main source for our knowledge of the trojan war is homer's iliad written sometime in the 8th century bce where he

recounts 53 days during the final year of the ten year conflict the greeks imagined the war to have occurred some time in the 13th century bce however the war was also the subject of a long oral tradition prior to homer s work and this combined with other sources such as the fragmentary epic cycle poems give us a more complete picture of what exactly the greeks thought of as the trojan war the trojan war in greek tradition started as a way for zeus to reduce the ever increasing population of humanity and more practically as an expedition to reclaim helen wife of menelaos king of sparta and brother of agamemnon helen was abducted by the trojan prince paris also known as alexandros and taken as his prize for choosing aphrodite as the most beautiful goddess in a competition with athena and hera at the wedding of peleus and thetis menelaos and the greeks wanted her back and to avenge trojan impudence scroll to the top of the page and click add to cart to read more about this extraordinary forgotten chapter of history
